List any specific I&R related training programs, workshops and seminars completed in the last two years. Ten hours of training (not necessarily Continuing Education Units or CEUs, although these would also be eligible) within the last 2 years are required for Recertification.

I&R specific training includes any material specific to your job in I&R that enhances your skills or knowledge of I&R. The *AIRS Performance-Based Competencies* available at www.airs.org/StudySuggestions will assist you in determining applicability.

Examples of specifically I&R-related training topics:

- Specific I&R-related workshops offered at conferences provided by AIRS or an AIRS affiliate.

In general, training **not accepted** are those related to skills and positions not involved in I&R, such as management/administration or non-I&R software training. **Remember**, recertification does **not** require the same 30-day receipt of application that applies to initial certification. However, applications should be received in the AIRS office prior to expiration of the current certification.

- It is understood that the full certification fee is non-refundable and non-transferable.
- The AIRS Certification Program will provide written notification to those candidates who do not meet the eligibility requirements or do not pass the examination.
